CASCOM HISTORY

CASCOM HQ Fort Lee, VA

IOC of the Sustainment COE

Planning for BRAC results in: CASCOM,OC&S, TS&C, QMC&S, ALMC forming the SCOE at Fort Lee.

CASCOM Reorganization was implemented. Combat developments and Training development centralized in CASCOM.

Combined Arms Support Command (CASCOM) is formed when the LOGCEN is merged with the Soldier Support Center and remains at Fort Lee.

TRADOC created. Three major subordinate commands created: the Combined Arms Center (CAC), the Logistics Center (LOGCEN) and the Administrative Center. Materiel development is now a joint effort. TRADOC is the primary combat developer and AMC as primary materiel developer. LOGCEN located at Fort Lee.

Combined Service Support Group created as one of two subordinate elements of the Combat Developments Group (CDC) and activated at Fort Lee. Designed to integrate under CDC the log and admin support functions. Each branch school maintained their own separate departments of combat developments and doctrinal expertise.
